

Machine & plant operator (m/f) (metal, plastics technology)

for our production site in Viersen-Dülken (near Mönchengladbach, Germany)

Looking for a new experience in a growing medium sized internationally operating company? You have first experience as a machine and plant operator in the field of plastics processing, especially in extrusion? Great! Still without experience, but willing and able to learn fast and help us pushing the company's success? Than you are also very wanted, as we are happy to train motivated applicants in this field.

Your tasks

- Processing of order-related production lots
- Retooling and Adjusting of machines and products
- Marking and assembling of products
- Machine monitoring
- Correction of minor malfunctions

What we offer

- Fair payment
- A secure job in a company that has been growing faster than the market for years
- Nice colleagues
- Yearly vacation of minimum 24 days
- Free development for your skills and ideas connected with chance of wage increasement

What we expect

- Manual skills and technical understanding
- Willingness to learn but also to train your colleagues
- Care and accuracy
- Reliability & Flexibility
- Willingness to work shifts (three shift model)
- Knowledge of German (A1/A2) or at least strong willingness to learn the language
- A completed technical/technical training is advantageous

Ready for the challenge? We are looking forward to receiving your application (CV + references), including your earliest possible starting date and salary expectations via mail at application@apd-schlauchtechnik.de.
